F.A.M Moment
Sunday, May 24, 2020

**Directions:** Using what you learned from the lesson about Genesis 1 and the items you already have in your home you are going to create your own creation scene. Be creative, innovative and have fun with the family.

**Examples:**

Using coloring utensils and paper, draw a picture of the items God created, including your family.

Using your stuff animals, action figures, barbies, etc. tell your own creation story about how God created each item and what makes it unique and special.

Using your Play-Do, Legos, or technology tools create your own creation scene.

*This family used Legos to display God’s creation of the sun, water separated from land, grass, tree and humans.*
